

**Good Data Will Talk to You!
Are You Ready to Listen?**

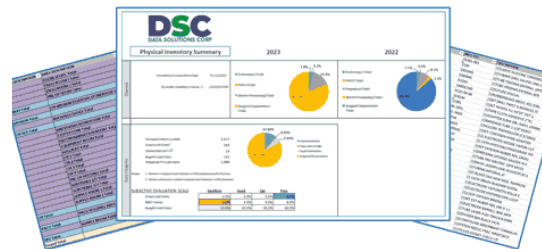

DSC's proprietary software "AIMS™" is used to accurately import your Item Master so that your pricing is used to value your product. On site review of your inventory in progress is facilitated by AIMS™ reporting, by our On-Site Processor.

Data Solutions Corp A Hospital Inventory Service

We help hundreds of hospitals and health care systems across the country by accurately counting their clinical inventories. DSC's inventory valuations help hospitals book accurate figures for financial purposes, which leads to supply chain optimization and customers improving their bottom line. How can you effectively manage your supply chain if you are not confident about your true valuation? Let DSC provide the road map so you can accomplish your goals!

Reports

Comprehensive Hospital and Pharmacy Inventory Reports

DSC provides comprehensive analysis reports with numerous ways to view your inventory results. These reports are turned around in as little as 3 business days. Additionally, for repeat customers, we can provide optional high-level year-to-year, quarter-to-quarter, or month-to-month comparison data to help keep the materials management staff aware of increases or decreases of medical inventory on hand.

MENU OF SERVICES

Clinical Inventories

The most accurate counts in the industry performed by a professional team of inventory specialists.

Pharmacy Inventories

Specialists trained in proper UOM's, dosages and pill count procedures.

Laboratory Inventories

Specialists trained to count in lab environments, with knowledge of Reagents, Calibrators, and Refrigerated stock.

Cycle Counts

No year-end surprises. Perform Cycle Counts for regular inventory maintenance. We can help set up a program for you.

Warehouse Inventories

Perpetual counts, Forward Buy stock, PPE bulk stock, Offsite storage, etc.

Pyxis/Omniceil Data Projects

Verify compliance and recommend improvements while updating Balance on Hand.

Consignment Verification Program

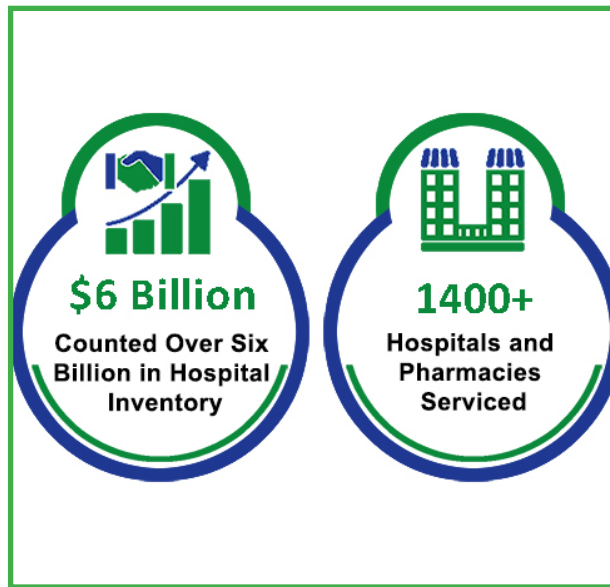

Accurate reporting of Consigned vs. Owned vs. Vendor Owned, contract maintenance & compliance. Liability issues exposed.

Skilled Resources Provided

Trained, fully credentialed and experienced personnel to supplement your staff as needed.

Post Inventory Support

Review inventory results and procedures. Our support continues beyond the count.

DSC

DATA SOLUTIONS CORP

**Understanding Your Goals,
Your Needs & Your Expectations**

MENU OF SERVICES

Expired Product Assessment

A program to remove expired product, tag soon to be expired items as "Use First", and rate department compliance. Be proactive! Get ahead of an audit by THE JOINT COMMISSION (formerly JCAHO)!

Item Master File Cleanse

Providing standard GUDID descriptions, reference number uniformity, removal of item duplication & UOM conversion factor adjustments. Additional enhancements possible.

MMIS & ERP Implementation Assistance

Start with a clean slate to avoid future problems.

Comparative Analysis Reporting

New data comparisons to historical data to spot trends or uncover opportunities for improvement.

Corporate Inventory Requirements (CIR)

For multi-system customers, different inventory procedures may be exposed. Processes can be adjusted and standardized, allowing for true site by site comparisons.

Relationships with Industry Leaders

If your system seeks Supply Chain Solutions outside of DSC's Menu of Services, we can introduce you to companies that can help.
